

TEST FIVE – Chapters 8 and 11, POLARITY, InterMolecular FORCES, & CHEMICAL EQUATIONS

Possible Review Problems

- p.244 Section Assessment #32-38
- p.247 Reviewing Content #57-61
- p.236 Section Assessment #25-31
- p.247 Reviewing Content #53-56
- p.327-328 Practice Problems #3-6
- pp.331, 332, 334, 335, 337 Practice Problems
- p. 347 Reviewing Content #44-52
- p.339 Section Assessment #22-27
- p.251 Standardized Test Prep
- p.351 Standardized Test Prep

Topics Covered

Bond polarity, percent ionic character, shapes of molecules, shapes and polarity, molecular polarity, polarity and solubility, types of intermolecular forces, evidence of intermolecular forces, IMFs and chromatography, IMFs and boiling points, chemical symbols, writing reactions, balancing reactions, types of reactions

And as always, study your notes!
